ST. PETER TECHNOLOGY REQUEST

Who will answer gladly saying "Here am I?"

The St. Peter Technology Committee is looking for a few good men...and women. Young and old. These positions are open to everyone, and no experience is necessary. Any training needed will be provided. Some opportunities are available now, others in the near future. Interested?

As you may be aware, we are in the process of upgrading our audio system at St. Peter. We foresee the possibility of adding some video features to the services and also recording the services for use on the web and/or social media. We are looking for a group of about 30 dedicated people to serve in any (but not necessarily all) of these technology related roles, including: using current equipment to continue to support our services and live radio broadcast, managing the current and new A/V equipment during church and school functions, preparing video displays for use during the services (slides, sermon notes, words to the hymns), recording and editing the service for later use, uploading and managing content on the web, managing communication via social media platforms, and probably things we have not even thought of yet.

If this is an area where you think you can help fulfill the mission of the church, the Technology Committee will be having a couple informative, Q/A type meetings in the near future. We encourage anyone interested in learning more about any of these technology opportunities to attend a least one of these meetings or express your interest by contacting the church office at 867-2200, or stpeter@splwega.net. Again, the only requirement is the desire to "teach all nations" and training will be provided on the hardware and software that you would be using. Please watch the bulletin for meeting dates.
