WANTED: BOTTLE CAPS

The average person knows that plastic bottles can be recycled, but did you know that the caps should not be included? Due to the difference in the kind of plastic used, many recycling centers do not accept plastic caps. As a result, bottle caps are one of the top 5 trash items found in the ocean that are deadly to sea life (North Sea Foundation).

The children at St. Peter's are taking a stand against this form of pollution by creating a bottle cap mural. Please consider donating plastic bottle caps of all colors and sizes to help us with this project! Acceptable caps would be bottled water caps, soda bottle caps, milk caps, peanut butter jar lids, etc. Donations should be WASHED and then dropped off in the designated bin in the entryway of the school. Any remaining caps will be donated to various programs that reuse the plastic for park benches, wheelchairs, art projects, and more. Thank you in advance for your help with this project!
